

# MILESTONES

Verissima House one year on...

Verissima House, a little healing centre in the hills of Mundaring with four practitioners and natural skincare and aromatherapy products, opened with a flourish 12 months ago. As soon as you set foot inside, you feel relaxed by wafting aromas and the welcoming healing ambience of the small cottage.

Verissima House is the brainchild of Vera Ross, who reflects with humour upon how her own home “exploded” as her business grew. As she says, “There was no more kitchen or dining room table. My house became a factory!” Verissima was no longer a “cottage industry”. It had expanded into a flourishing and widely recognised business with a range of sought after products.

In deciding to reclaim her home, Vera took the step of purchasing Verissima House – yet another cottage nestled among trees and magnificent

gardens in central Mundaring.

Vera clearly loves doing what she does well. She exudes enthusiasm and belief in her products when she talks of her deep seated philosophical and spiritual beliefs which have ‘nature’ and “all things natural” at their core.

To celebrate this milestone, Verissima is having a First Birthday Celebration at Verissima House and Gardens with mini sessions of Massage, Beauty Therapy, Homoeo-pathy, Reiki and Reflexology; Arts & Crafts, face painting and Baby Farm Animals for the kids and more.

Come and help celebrate on Saturday May 10 at 16 Craig Street, Mundaring from 11am to 9pm. Food, drinks and live music will be available all day.

Milestones is where our advertisers can celebrate significant business achievements. Editorial remains entirely at the editor's discretion.
